

WELCOME TO THE MAGICAL WORLD OF

Not so long ago, my life had changed for the better just because of one decision that I've made. When I decided to join the PHI family, my journey to the top had begun.

I have worked hard and unstoppable to reach my goal, and I'm finally there, but I still take my part in learning and passing the knowledge to others.

I have always believed that if you want to rise, you have to give first, and I gave my persistence, desire, and will to perfect myself on many levels. I am now a PHI master in these techniques:

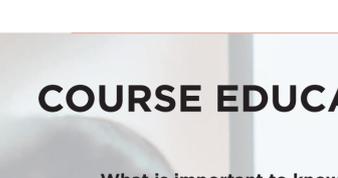

The list is long and so was my dedication. Now I don't just do these treatments, but I can also teach you how to do them, how to make a business in this industry, and finally, I can be the initiative for the change you are longing for.

THE UNIQUE PHIBROWS TECHNIQUE

This specific technique easily gives fullness, modern appearance, and perpetual eyebrow definition. That's why it's the most popular in the world.

The secret is in precision, a combination of creativity and knowledge, but also in constant practice.

Phibrows is a technique in which we use microblading methods to draw hairs to fit in and give a natural and neat look to eyebrows. This achieves the perfect balance between treatment and final appearance, highlighted by the beauty of the eyebrows.

Phibrows is a manual, semi-permanent technique of hyper-realistic eyebrow drawing in which the shape of eyebrows is calculated according to facial morphology and golden proportion (phi 1.618)

COURSE EDUCATION CONCEPT

What is important to know about the Phibrows course?

- The Phibrows course is divided into two phases: 1. **Theoretical phase** and 2. **Practical phase.**

- In the theoretical phase, you will get to know more about snake types, colorization, aesthetic parts of technique, but also you will hear a word or two about tools that are used and similar things.

- In the practical phase, you will get to practice on latex skin, so that you can learn just the right amount of pressure that you should use, how to manage your tools, and of course how to use the phi app for your and clients benefits. Later you will be able to practice on real live clients.

- Education in person lasts for two days, but that is not the end of it. Education and lessons last for 4 to 6 months after the direct course with me. In this period Phi family and I are providing support, answering your questions, and helping you to conclude the first step to your business.

- Master craft app is also available on the play or apple platform where you will have access to lessons of the course. The application contains 12 levels through which each student must pass. In each level, exercises you send in the form of photos are evaluated.
