

PhiLings

Not so long ago, my life changed for the better just because of one decision that I made. So when I decided to join the PHI family, my journey to the top began. I have worked hard to reach my goal, and I'm finally there, but I still take my part in learning and passing the knowledge to others.

I have always believed that if you want to rise, you have to give first, and I gave my persistence, desire, and will to perfect myself on many levels. I am now a PHI master in these techniques:

- PhiBrows
- PhiBright
- Microneedling
- Philon
- PhiLings
- SaikoBrows
- PhiHenna
- PhiLaser
- PowderBrows

The list is long, and so was my dedication. Now I don't just do these treatments, but I can also teach you how to do them, how to do a business in this industry, and finally, I can be the initiative for the change you are longing for.

PhiLings technique

There is no better choice for you than The PhiLings course if you wish to learn microneedling and Philon methods and how to treat skin correctly!

PhiLings treatment includes Phi-Ion and Microneedling cosmetic treatments: two revolutionary techniques that complement each other and can be performed together or separately, depending on the indications for the treatment.

PhiLings treatment is based on stimulating the production of natural collagen and protecting the skin from harmful external influences, on the one hand. On the other hand, it removes various types of irregularities and signs of aging on the skin.

PhiLings treatment is especially valuable as it allows the skin to appear rejuvenated, hydrated, firm, and healthy only 24 hours after the treatment and without surgery.

Education

The PhiLings training is based on two-day education for Phi-Ion and microneedling treatments - two equally revolutionary, unique, anti-age, and regenerative treatments. But we have some important information to bring to your attention:

****Every country has regulations that decide who can perform this treatment. Before enrolling in the course, the Phi Academy advises you to check whether you can perform the treatment in your country. ****

DAY 1 Theoretical part

The first day of PhiLings training consists following lessons based on Theory:

- How to prepare the client,
- What PhiLings treatment includes
- Hygiene course,
- Skin structure theory and characteristics of certain parts of the skin of the face and body,
- How to determine different skin types and recognize characteristic skin changes,
- Introduction to tools and devices that will be used for treatment,
- Appropriate care after treatment.

DAY 2

Day two of Philings education is based on practice:

- You will have the chance to learn how to use microneedling and Philon tools on latex (artificial leather) and
- work on a live model.

After receiving the certificate of successfully completed technique, you will automatically be listed on our Phi-Academy World Map so that your potential customer can find you easily. You can find the already existing artists of our Academy on the PhiAcademy map: <https://www.phi-academy.com/COMMUNITY/>

The PhiLings course is also available online via the CraftMaster App.

Online and workshop PhiLings courses have the same program, and after graduation, the student receives the same certificate, and students will be published on the PhiAcademy world map. The difference is that in the workshop, students have a two-day live course where they become familiar with the practice and basic problems of the technique and skin.

CRAFT  MASTER

PhiLings Kits

Starter kit with Simplicity Artist machine and Phi-Ion Pen Pro

- Phi Ion Pen Pro+ 20 sterile electrodes
- Simplicity Artist + 20 sterile needle modules
- Universal Phi Holder + 10 round 5 sterile needles + 10 round 3 sterile needles
- Phi wipes asept 20
- Microneedling solution Tango 10 blister mono doses
- Microneedling solution Jive 10 blister mono doses
- Skin Candy After Care Balm / 10 pieces
- Ultimate skin cocktails 20
- After treatment Phi Mask 20
- Cosmetic Pencil 1
- PhiFoil Face 100/1 1pc.
