

SaikoBrows

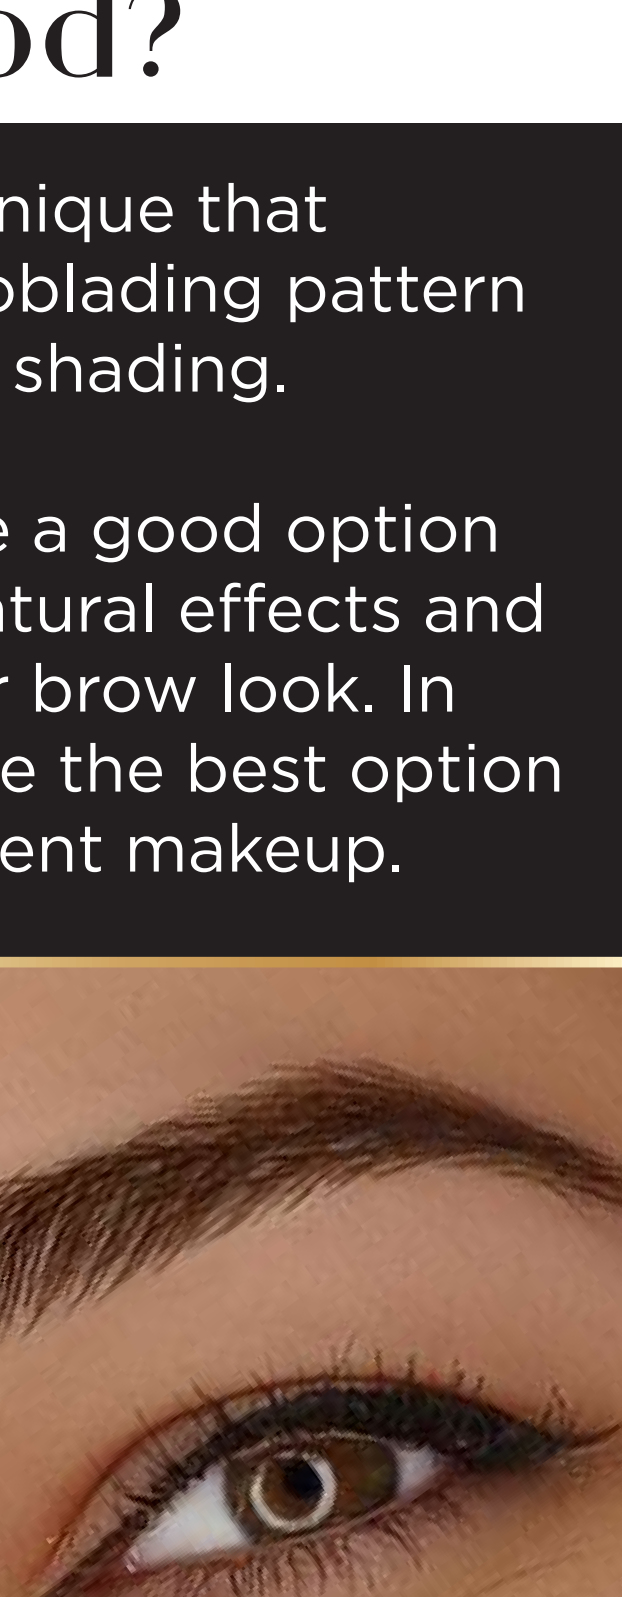

Not so long ago, my life changed for the better just because of one decision that I made. So when I decided to join the PHI family, my journey to the top began. I have worked hard to reach my goal, and I'm finally there, but I still take my part in learning and passing the knowledge to others.

I have always believed that if you want to rise, you have to give first, and I gave my persistence, desire, and will to perfect myself on many levels. I am now a PHI master in these techniques:

- PhiBrows
- PhiBright
- Microneedling
- Philon
- PhiLings
- SaikoBrows
- PhiHenna
- PhiLaser
- PowderBrows

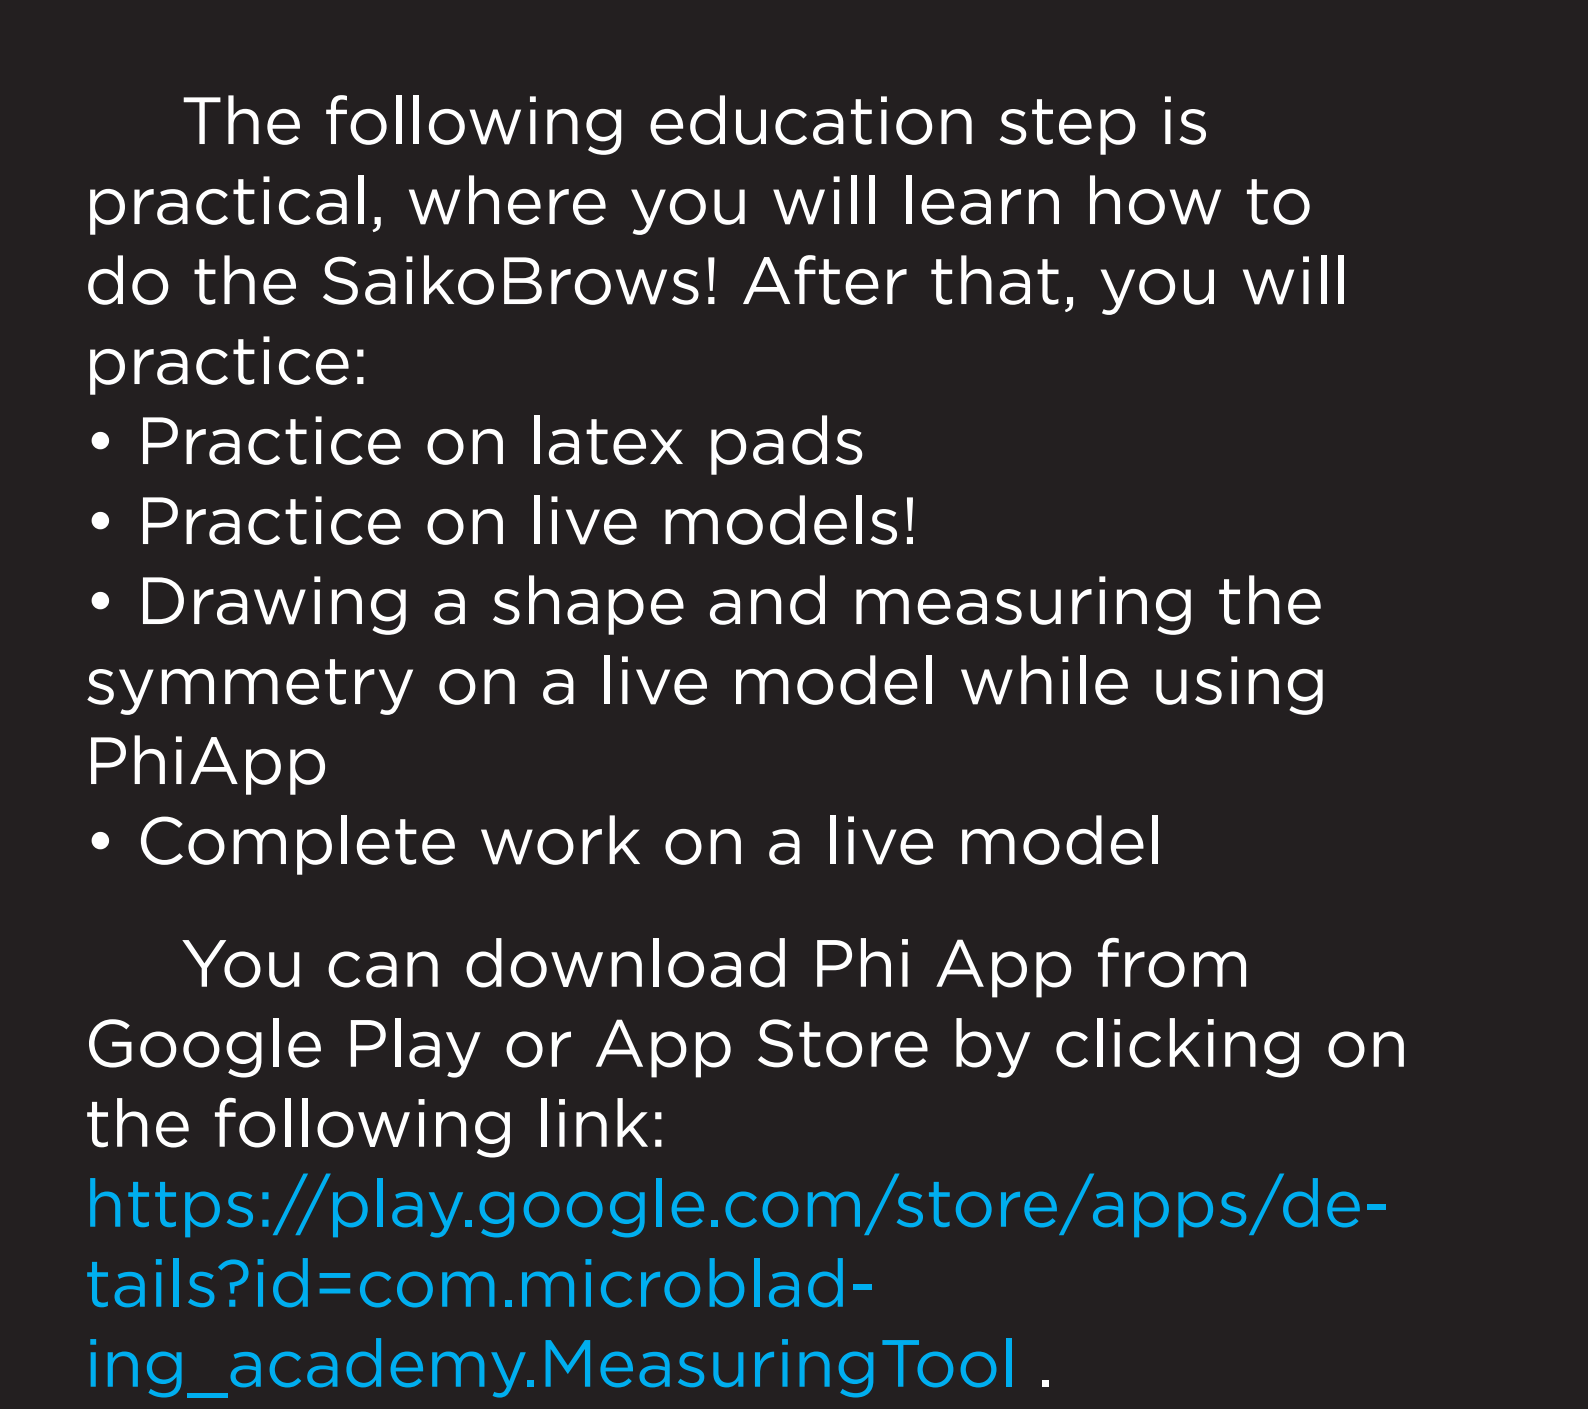

The list is long, and so was my dedication. Now I don't just do these treatments, but I can also teach you how to do them, how to do a business in this industry, and finally, I can be the initiative for the change you are longing for.

What is the PhiSaiko method?

Saiko Brows is a technique that contains a specific microblading pattern combined with machine shading.

This technique will be a good option for clients who prefer natural effects and those who prefer a fuller brow look. In addition, this style will be the best option for covering old permanent makeup.

SaikoBrows education is divided into two main parts- theory and practice!

In the first part, you will learn about the following:

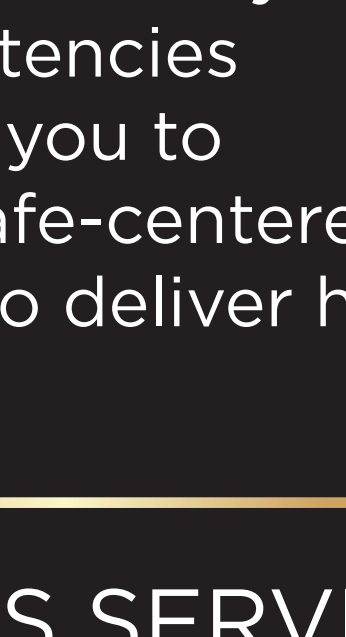

- The skin types
- Theory of color
- Saiko method
- Microblading and shading methods
- Hygiene
- Golden ratio
- How to use special PhiApp

The following education step is practical, where you will learn how to do the SaikoBrows! After that, you will practice:

- Practice on latex pads
- Practice on live models!
- Drawing a shape and measuring the symmetry on a live model while using PhiApp
- Complete work on a live model

You can download Phi App from Google Play or App Store by clicking on the following link:

https://play.google.com/store/apps/details?id=com.microblading_academy.MeasuringTool .

Your master will support you in every step, so be assured that you will learn everything necessary to be ready to work!
